It was **agreed** to defer the election of the remaining representatives to the meeting in June or when the council vacancies have been filled.

##### **7) Minutes**

It was **resolved to approve** the minutes of the previous meeting of the Parish Council of Monday 8 April 2013 and these were signed as an accurate record of the meeting.

##### **8) Adjournment of up to 15 minutes for members of the public to raise matters**

The meeting was adjourned to allow for a representative of a group of Bray Shop residents to speak against the proposed wind turbine application for Trefinnick. The speaker described the main points of the application and emphasised that their objection was on the grounds of cumulative impact, given that another turbine was being erected three fields' away. Other concerns were raised regarding the application and the lack of appropriate and timely notification to surrounding parishes, and of public engagement. No detailed plans have been forwarded to this parish council in spite of several requests. It was also reported that preparatory work had already begun on a new approach road, widening a track and removing hedgerow. This road would access directly the B3257 at a point which the speaker described as already dangerous given the approaching

speed of vehicles, and increase in volume of traffic. It is not known who will fund the road construction. The speaker reminded the parish council that a public meeting will take place on Wednesday 15 May 2013, and the other two parish councils concerned will hold their respective meetings next week.

Another member of the public spoke to the Parish Council concerning a revision of a previous application since withdrawn, which some members regarded as more favourable but were unable to make a formal recommendation as final, formal plans had yet to be submitted to the planning authority.

**9) Reports from and matters of concern to:**

- a) **Police representative/Cllr representative of 'Liskeard Have Your Say' (LHYS):** no report available
- b) **Cornwall Councillor McWilliam:** apologies read
- c) **Reports from other councillors:** Cllr Hopes has been in discussion with Cornwall Council (CC) regarding the closure of the public conveniences at Minions. He explained that the criteria employed by CC seems unclear but no special factors, e.g. location in an AONB and World Heritage Site, have been taken into account for the case of retaining the facilities at Minions. CC was unable to give satisfactory information regarding the calculation of visitor numbers, and had not considered use by educational groups. It was also reported that residents at Minions are getting up a petition, and that there had been visits from 56 children from Carbeile School and a group of students from Penryn College in this week alone. Members felt that since the facilities provide for residents in all of Cornwall it was unreasonable to expect Linkinhorne tax payers to foot the bill when there is no gain for them. It was **agreed** to pursue the matter and to discuss it further at the meeting in June.

**10) Council Vacancies**

- a) Proposed, seconded and upon being put to the vote it was resolved to initiate procedures to fill four vacancies by co-option, and to request that candidates give reasons for wanting to be a councillor, details of any interests and skills they might bring to the council and community, and also to ask why they did not stand for election. The Parish Council agreed that submissions may be heard at the meeting in June.

**11) Finance**

- a) Cash flow of accounts/bank reconciliation: it was **resolved to approve** the bank reconciliation as an accurate statement, and to **approve** a virement of the remaining balance from the grants' budget of 2012-13 to the grants' budget of 2013-14.

## 12) Planning

### a) **Planning Applications**

Upon being put to the vote the following recommendations/comments were made:

- i) PA13/02736 and PA13/02737 (LBC) conversion one unit to holiday accommodation at Lower Millcombe, Linkinhorne - **support**
- ii) PA13/02844 77m wind turbine at Trefinnick, Bray Shop to include consideration of community benefit offered.

Due to the difficulty of getting on to the website, and that the plans had not arrived as requested only the following points were discussed:

It was noted that the plan provided by objectors for this meeting could be testified as accurate by a member who had visited the site.

The policy area for the erection of turbines is vague, and not formally part of the development plan for CC.

The application does not address the cumulative impact.

It does not address the question of the countryside either in terms of location or views, such as the visual impact from the nearby AONB

There is no clear analysis of noise and flicker, the impact of which may be greater from taller turbines, and especially during various weather conditions and seasons.

It was explained that S106 rules have changed in the light of the new Community Infrastructure Levy (CIL), and that some councils have problems with collecting payments. Under CIL regulations payment must relate to planning purposes.

It was emphasised that it was impossible for the Parish Council to take a properly considered view and a technical appraisal without detailed plans, and that the documents are unnecessarily complicated.

The Parish Council expressed disappointment at the inadequate attempt at public engagement.

The Parish Council will request an extension of the deadline for consultation.

- ii) PA13/03137 change of use agricultural storage to livestock at North Coombe Farm, Rilla Mill (retrospective) – **support**
- iv) PA13/03090 To fell one beech tree with Conservation Area at The Gables, Rilla Mill (*tbd under delegated authority*)
